Mercado Aurora: Seller Performance Standards

Document POL-07 | Version 2 | Effective 1 January 2018 | Owner: Marketplace Integrity

1. Purpose

These standards define the level of service every seller must maintain. Performance is measured over a rolling period of 90 calendar days and reviewed on the 1st of each month.

2. Minimum standards

Measure	How it is calculated	Standard
Late dispatch rate	Items handed to the carrier after the shipping limit date, divided by all items dispatched	5% or lower
Cancellation rate	Orders cancelled by the seller or set to unavailable, divided by all orders received	2% or lower
Average review score	Mean of all review scores received, counted only when the seller has 20 or more reviews in the period	4.0 or higher
Message response time	Share of customer messages answered within 24 hours	90% or higher

3. What happens when a standard is missed

Situation	Action
One standard missed in a review	Written warning and an improvement plan due within 7 calendar days
Any standard missed in two consecutive reviews	Listings shown lower in search results for 30 calendar days
Any standard missed in three consecutive reviews	Store suspended until an improvement plan is approved

A late dispatch rate above 15% or a cancellation rate above 10% in a single review leads to immediate suspension.

4. Top Seller badge

A store earns the Top Seller badge when, in the same 90-day period, it has all of the following:

- at least 50 delivered orders;
- an average review score of 4.5 or higher;
- a late dispatch rate of 2% or lower;
- a cancellation rate of 1% or lower.

Top Sellers are shown higher in search results and are paid 7 calendar days after delivery instead of 14.

5. Delays outside the seller's control

A delivery that is late because of the carrier does not count against the seller, provided the item was handed to the carrier on or before its shipping limit date. Late dispatches caused by a declared public emergency are excluded when the seller reports them within 5 business days.

6. New sellers

Standards are not enforced during a store's first 30 calendar days or until it has received 20 orders, whichever comes first.
